IMPORTANT INFORMATION ABOUT THE SOURCE USED (ERICA¹ DATABASE) AND ABOUT THE FIGURES BY COUNTRY

The data used in this study are obtained from publicly available financial statements of European non-financial listed groups, having been treated manually, by CBSO statisticians and accounting specialists, to be fitted on a standard European format (ERICA format); this manual treatment involves, in some cases, the interpretation of the original data, a constraint that readers of this document should bear in mind.

The database does not represent the total population of European non-financial groups; nevertheless, the coverage attained with ERICA (in the whole dataset of almost 1.000 groups) on the listed European groups is well-attuned to the situation and national composition of the stock markets. The analysis performed in this document, with the limitation expressed in the previous paragraph, provides a view of the position and performance of the listed non-financial European groups. However, the analysis includes some commentaries about the performance of the listed European groups according to the country where the parent company is based. The largest ERICA groups are multinationals, whereby the following has to be borne in mind: the performance of the groups belonging to a country does not necessarily reflect the performance of the country itself.

The opinions of the authors of this document do not necessarily reflect those of the national central banks to which they belong or those of the ECCBSO.

All the graphs and tables presented in the document are from the same source (ECCBSO-ERICA database).

¹ ERICA (European Records of IFRS Consolidated Accounts) is a database of the European Committee of Central Balance Sheet Data Offices.

EUROPEAN NON-FINANCIAL LISTED GROUPS: ANALYSIS OF 2016 DATA

ERICA (European Records of IFRS Consolidated Accounts) WG
